

Singapore layover, *without the clock panic.*

This is demonstration copy for the storefront prototype—not the final paid guide.

Planned format: a timing-first, phone-friendly guide for 8–24 hour layovers, with realistic airport buffers and useful stops.

01 Changi · clear immigration, store luggage, set the return alarm

02 Kampong Glam · an easy first city chapter

03 Marina Bay · choose one loop, not every landmark

04Changi · return with a deliberate safety buffer

WHAT THE FINAL GUIDE WILL COVER

The practical layer

- Route options matched to different layover windows
- Transport shortcuts and realistic airport-return timing
- Halal-friendly food ideas and prayer-space notes
- Saved map stops and rain-plan alternatives
- A simple spend outline in INR and SGD

Opening hours, immigration rules, fares and transport schedules change. The final guide will carry an update date and point travellers to official checks where needed.
